	Codo No. 117F7	R13							
	Code No: 117FZ JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD B. Tech IV Year I Semester Examinations, November/December - 2016 OPERATIONS RESEARCH								
	(Common to ME, MCT, MSNT)								
	Time: 3 Hours Max.	Marks: 75							
	Note: This question paper contains two parts A and B.								
:	Part A is compulsory which carries 25 marks. Answer all questions —Part B consists of 5 Units. Answer any one full question from each question carries 10 marks and may have a, b, c as sub questions.		**************************************						
,	PART- A								
		(25 Marks)	****						
:::::	1.a): :::What is operations research?:: ::::		* * * * * * * * * * * * * * * * * * * *						
	b) "Give various definitions of operations research?"	[3]							
	c) What is meant by optimal solution?	[2]							
	d) Explain the steps in transportation algorithm.e) What are the assumptions made in the sequencing problem?	[3] [2]							
	f) What is priority sequencing and what are the priority sequencing rules?	[3]							
*****	g) : Explain the rules to determine a saddle point : : : : : : : : : :-		**** ****						
***	h) Explain the terms i) Pure strategy ii) Mixed strategy.	[3]	i *,						
	i) What is simulation?	[2]							
	j) Describe the various elements of the queue.	[3]
