Agenda:

Day-1:
Introduction to Artificial Intelligence and Machine Learning, Overview of Natural Language Processing (NLP), History, Four Phases of NLP, Design of NLP Structure, Language Modelling (LM) in NLP.

Day-2:
Tokenization, Stemming, and Lemmatization, Tokenization using SpaCy, Stemming and Lemmatization.

Day-3:
Word-Level Analysis, N-grams and Evaluation of N-grams, Parts of Speech (POS) and Issues with POS in Text Data.

Day-4:
Introduction to syntactic and semantic analysis- Lexical Semantic Analysis and Representations in NLP, Semantic Analysis.

Day-5:
Introduction to speech fundamentals-Types of Speech Conversions, Text-to-Speech Conversion.

About the College:

ACE Engineering College was established in 2007 by YadalaSatyanarayana Memorial Educational Society with the fundamental objective of nurturing the group of nascent talent of young minds aspiring to make career in engineering into a pool of valuable and employable engineers. In addition, they understand their responsibility to willfully render services to the society with dignity and accountability.Prof. Y. V. Gopala Krishna Murthy, an Educationist, Engineer, Motivator, and founder of ACE Engineering Academy is at the helm of academic affairs in the college. The Academy, a premier coaching center for GATE, ESE(IES) and Public Service Commission selections conducted by various state governments for recruitment of engineering graduates, is the most sought-after coaching center and has been consistently contributing toppers to all the premier technological institutions in India viz., IITs, IISc, NITs and other universities. The Academy, in the last two decades of its committed services in the training and coaching sectors for engineering graduates across the country, has produced toppers in Engineering Services, as also state service Commissions recruitments.The college offers B.Tech courses in CE, EEE, ME, ECE, CSE, CSE (AI & ML), CSE (DS), CSE (IoT), and IT Branches. CE, EEE, ME, ECE and CSE course are NBA accredited. The college is Conferred Autonomous status for ten years w.e.f AY 2020-21.

About the Department:

ACE Engineering College presents a comprehensive and robust four-year undergraduate program in B.Tech CSE (AI & ML) with a current intake of 180 students. This program aims to establish a strong educational foundation by incorporating fundamental principles and cutting-edge technologies associated with various domains of Artificial Intelligence. By immersing students in these principles and cutting-edge technologies, we prepare them for an advanced understanding of this field.This program is designed for students aiming to acquire in-depth knowledge and proficiency in Artificial Intelligence, Machine Learning, and other emerging technologies. By developing expertise in these fields that demonstrate significant potential, individuals can differentiate themselves and enhance their professional trajectory within the dynamic technological landscape.

- *No registration fee for ACE Engineering faculty*
- *E- Certificate will be provided to participants who attend all the sessions.*
- *Mode of conduction is online and the link will be shared through whatsapp channel or registered mail.*

1. Introduction

The Department of Computer Science and Engineering (AI & ML), ACE Engineering College organized a 5-day Faculty Development Programme (FDP) on **Natural Language Processing** (NLP) from **May 5 to May 9, 2025**. The program was conducted to enhance the knowledge of faculty in emerging AI technologies, specifically focusing on NLP — a rapidly growing field in computer science and artificial intelligence.

A Hands-on Experience on most of machine learning solution with Anaconda-Python on areal-world dataset using Natural Language Processing. NLP AI models, like the one I am based on, are designed to process and analyze large amounts of text data, enabling them to understand the meaning, context, and sentiment behind written or spoken language. These models use a combination of techniques, including machine learning, deep learning, and linguistic rules, to extract information, classify documents, generate responses, and perform various language-related tasks. Python programming, a powerful programming for NLP.

Importance of NLP:

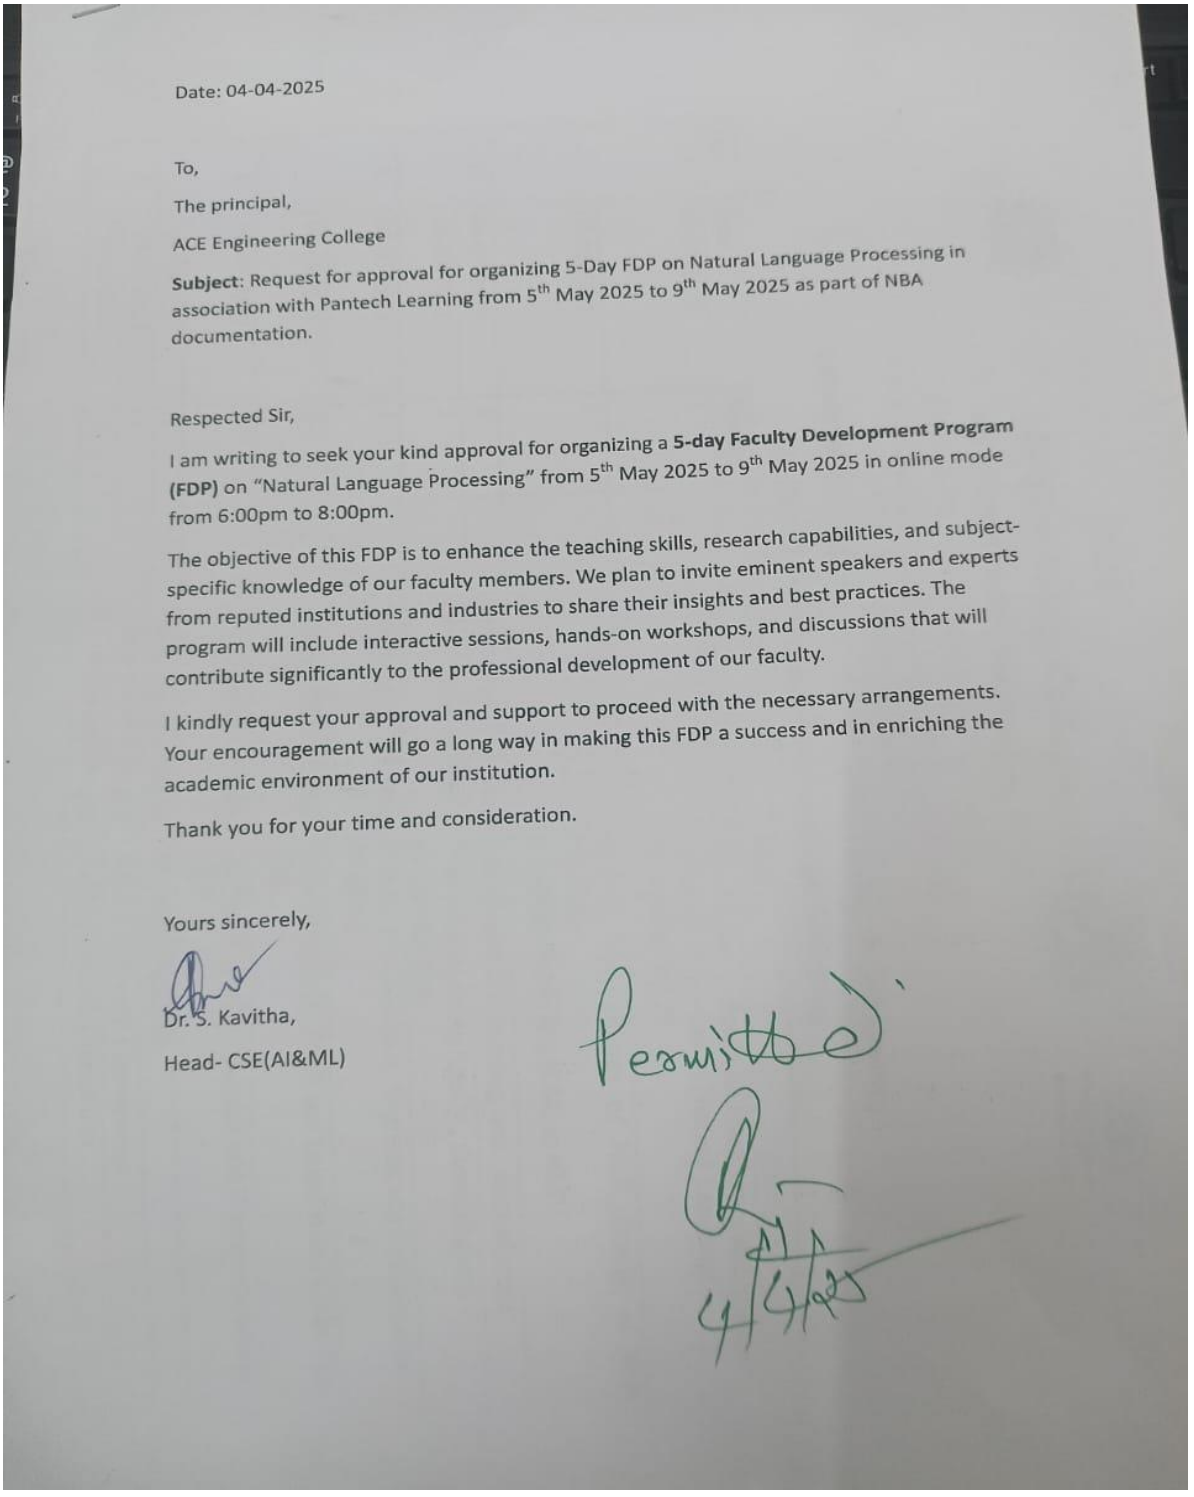
- NLP used for the present day's applications like siri, google assistant and chat GPT
- It can be converted into different formats based on conversion like chat bot, sentiments , image to text to speech to text to speech conversions.
- Its use full to reduce human works in present days

2. Objectives

- **To build foundational knowledge in NLP and its mathematical underpinnings**, including linguistics, probability, and linear algebra.
- **To familiarize faculty with real-world applications** of NLP such as speech recognition, text summarization, sentiment analysis, and machine translation.
- **To provide hands-on experience with NLP libraries and frameworks** such as NLTK, spaCy, Hugging Face Transformers, and TensorFlow/Keras for language modeling.
- **To highlight recent research trends and breakthroughs** in NLP, including advancements in large language models (LLMs) like GPT, BERT, and T5.

- **To develop an understanding of ethical issues** in NLP such as bias, misinformation, and data privacy.
- **To promote interdisciplinary teaching and curriculum development** by integrating NLP concepts into various technical subjects.
- **To train faculty to design mini-projects and capstone projects** involving NLP for undergraduate and postgraduate students.
- **To encourage collaborative academic research and funding proposals** in the domains of AI and NLP.
- **To support outcome-based education (OBE)** by mapping NLP tools and techniques to Program Outcomes (POs) and Course Outcomes (COs).
- **To stimulate the adoption of NLP in academic administration**, such as automating feedback analysis, chatbot development, and content generation.

3. Approval Letter



Date: 04-04-2025

To,

The principal,

ACE Engineering College

Subject: Request for approval for organizing 5-Day FDP on Natural Language Processing in association with Pantech Learning from 5th May 2025 to 9th May 2025 as part of NBA documentation.

Respected Sir,

I am writing to seek your kind approval for organizing a **5-day Faculty Development Program (FDP)** on "Natural Language Processing" from 5th May 2025 to 9th May 2025 in online mode from 6:00pm to 8:00pm.

The objective of this FDP is to enhance the teaching skills, research capabilities, and subject-specific knowledge of our faculty members. We plan to invite eminent speakers and experts from reputed institutions and industries to share their insights and best practices. The program will include interactive sessions, hands-on workshops, and discussions that will contribute significantly to the professional development of our faculty.

I kindly request your approval and support to proceed with the necessary arrangements. Your encouragement will go a long way in making this FDP a success and in enriching the academic environment of our institution.

Thank you for your time and consideration.

Yours sincerely,

Dr. S. Kavitha,

Head- CSE(AI&ML)

	09-05-2025	2	7:00 pm to 8:00 pm	Text-to-Speech Conversion

6. Program Schedule

DAY1:- INTRODUCTION TO PYTHON FOR NATURAL LANGUAGE PROCESSING IN ARTIFICIAL INTELLIGENCE

SESSION	TIME	CLASSTOPICS
1	06:00 to 07:00	**Introduction to Artificial Intelligence and Machine Learning, Overview of Natural Language Processing (NLP)** **Python Programming Essentials** • File Handling, Exception Handling, Command Line Arguments • Modules and Packages with basics of python • Installation of Software and Library Files
	07:00 to 07:05	****TEABREAK****
2	07:50 to 08:00	• **Introduction to NLP** • History, Four Phases of NLP, Design of NLP Structure • **Language Modeling (LM) in NLP**: Statistical LM, N-grams, Hidden Markov Models (HMM), and Linguistic Rules **Doubts????**

DAY2:- TOKENIZATION, STEMMING, AND LEMMATIZATION

SESSION	TIME	CLASSTOPICS
1	06:00 to 07:00	Tokenization, Stemming, and Lemmatization **Tokenization and Methods in NLP and Regular Expressions (RegEx)** **Hands-on Tokenization:** • Tokenization for Words using NLTK with Excel Data • Sentence Tokenization from Text Data • Word Tokenization using RegEx • Sentence Tokenization using RegEx
	07:00 to 07:05	****TEABREAK****
2	07:50 to 08:00	**Tokenization using SpaCy , Stemming and Lemmatization:** **Hands-on Practice:** • Word Tokenization using SpaCy • Sentence Tokenization using SpaCy • Differences between Stemming and Lemmatization • Hands-on with NLTK for Stemming

DAY3:- PARTS OF SPEECH (POS), ENTITY RECOGNITION, AND TEXT MODELING

SESSION	TIME	CLASSTOPICS
1c	04:00to 05:00	Parts of Speech (POS), Entity Recognition, and Text Modeling **Word-Level Analysis, N-grams and Evaluation of N-grams** **Hands on:** • Parts of Speech (POS) • Named Entity Recognition (NER) • Model Building for Text Analysis • Lemmatization with NLTK • N-gram Evaluation using Input Data
	07:00 to 07:05	****TEABREAK****
2	07:50 to 08:00	**Parts of Speech (POS) and Issues with POS in Text Data** • Examples of POS in Context using NLTK • POS in Context using SpaCy • Named Entity Recognition (NER) for Pre-processed Data • Building Models:Entropy, Hidden Markov Models using NLTK and ML Models **Doubts??????**

DAY4:- SYNTACTIC AND SEMANTIC ANALYSIS

SESSION	TIME	CLASSTOPICS
1	06:00 to 07:00	**Introduction to Syntactic and Semantic Analysis** • Lexical Semantic Analysis and Representations in NLP **Syntactic Analysis** **Hands-on Practice:** • Examples of Syntactic Analysis • Apply Syntactic Techniques for Text Data
	07:00 to 07:05	****TEABREAK****
2	07:50 to 08:00	**Semantic Analysis**: **Hands-on Practice:** • Lexical Semantic Analysis • Representation of Words and Sentences • Examples of Lexical Semantic Analysis with Input Data **Doubts????**

DAY5:- SPEECH RECOGNITION

SESSION	TIME	CLASSTOPICS
1c	06:00 to 07:00	**Introduction to Speech Fundamentals** Types of Speech Conversions: • Text to Speech • Speech to Text **Hands-on with Tesseract:** • Installation and Setup of Tesseract for OCR (Image-to-Text Conversion) • Text Extraction from Images using Tesseract Library
	07:00 to 07:05	****TEABREAK****
2	07:50 to 08:00	**Text-to-Speech Conversion** • Installation of pyttsx3 or gTTS Library • Convert Text to Speech from Input Text with Examples **Voice-to-Text**: **Hands on:** o Hands-on with Speech Recognizer Library o Convert Voice to Text using Speech Recognizer **Doubts??????**

7. Resource Person(s)

i. Speaker Name : Gowtham

Company Name: Pantech Solutions India Pvt Ltd

Specialization: Java Development, Android App Development, Machine Learning, Artificial Intelligence (AI).

Biodata: Gowtham K is a versatile software engineer with expertise in Java, Android application development, Machine Learning, and Artificial Intelligence. His solid foundation in software development, paired with deep knowledge of AI and machine learning, allows him to build scalable, intelligent applications for both mobile and web platforms. Gowtham's passion lies in creating dynamic, data-driven solutions that enhance user experiences and solve complex real-world problems.

ii. Speaker Name : Arivazhagan T

Company Name: Pantech Solutions India Pvt Ltd

TECHNICAL SKILLS Programming Languages: C, C++, Python. Firmware: Gen AI, Open CV, DIP, Artificial Intelligence, Machine Learning, Deep learning, AI, NLP, Flask, Django, ChatGPT.

8. Key Personnel

- **Chief Patrons:**
    - Prof. Y. V. Gopala Krishna Murthy – General Secretary
    - Mr. Y. V. Raghu Vamsi – Chief Operating Officer
- **Patrons:**
    - Dr. B. L. Raju – Principal
    - Dr. M. Murali – Vice Principal
- **Convenor:**
    - Dr. S. Kavitha – HoD, CSE (AI & ML)
- **Coordinator:**
    - Mr. D. Ranjith – Assistant Professor, CSE (AI & ML)

9. Participants

The FDP witnessed active participation from over **61 faculty members** belonging to various engineering institutions and universities across disciplines, indicating a strong interest in NLP.

• Tokenizing and Part-of-Speech Tagging: Text is broken into tokens (words) and each token is tagged with its grammatical role which provides important clues for identifying entities.
• Entity Detection and Classification: Tokens or groups of tokens that match patterns of known entities are recognized and classified into predefined categories like Person, Organization, Location etc.
