McArti Gala Tech and Talent Showdown

6th May 2025

Date: 5th, 6th May 2025

Event Title: McArti Gala

Bug bounty hunt:

This two-person coding challenge, hosted right here on campus, was a high-energy mix of logic, teamwork, and a bit of bug-fueled chaos. The concept is simple but brilliant: you and a partner dive into a pre-written codebase riddled with bugs—some obvious, others devilishly hidden—and try to spot as many as possible before the clock runs out.

Speed coding relay:

This three-person team event brought a unique twist to problem-solving: think of it as a coding race meets relay baton. The challenge? Solve a series of programming problems under time pressure—but **only one person can code at a time**. Once their turn is up, the next teammate picks up right where they left off. It's intense, it's fast, and it's hilariously fun when you're trying to decode your friend's logic on the fly.

Digital manhunt:

Digital Manhunt is a thrilling online mystery-solving event where participants play digital detectives. Using clues, hidden codes, and multimedia hints, they must uncover secrets and solve a challenging case. Combining elements of a treasure hunt and cyber investigation, the event tests logic, observation, and problem-solving skills. Compete solo or in teams, race against time, and crack the case.

E-sports:

The campus witnessed an adrenaline-pumping display of gaming prowess as the **E-Sports Tournament** successfully concluded with thrilling matches in **Free Fire** and **BGMI**. The event brought together passionate gamers from across the college in a battle of reflexes, teamwork, and strategy.
